

Chakra Activator - Element Activator

Product Overview

The Chakra & Element Activator is a portable frequency device designed to harmonize the human energy field by utilizing pulsed electromagnetic fields, chromotherapy (color light therapy), sound resonance, and enhanced water and substance structuring. Drawing upon principles from biofield science, traditional energetic models (like TCM and chakra systems), and contemporary studies in photobiomodulation and electromagnetic medicine, the device offers a holistic solution for emotional, physical, and spiritual well-being.

1. Introduction

Bioenergetic healing technologies increasingly bridge ancient wisdom with modern science. The Chakra & Element Activator, developed by Light Mandalas, uses a synergistic combination of Tesla-based pulsed magnetic fields, color-light therapy, sound vibration, and water activation to support biofield regulation and holistic health.

2. Scientific Principles Behind the Device

2.1 Tesla Bifilar Coil & Pulsed Electromagnetic Fields (PEMF)

The device employs a bifilar Tesla coil to generate pulsed magnetic fields at three principal frequencies: 998 Hz, 50 kHz, and 150 kHz, modulated at the Schumann resonance (8.5 Hz) to harmonize the body's biofield with Earth's natural frequency.

- **998 Hz** stabilizes the aura and creates a shielding effect.
- **50 kHz** improves blood and lymph fluidity, supporting Yin energy channels.
- **150 kHz** inhibits microbial activity and promotes Yang energy flow.

Scientific Basis: Pulsed magnetic fields have been shown to influence ion channel behavior, enhance circulation, and stimulate tissue regeneration.

2.2 Color Therapy (Chromotherapy)

Different light spectra target energetic elements and physical systems:

- **Red Light:** Activates the "Fire" element, enhances oxygenation and skin health.
- **Green Light:** Supports tissue regeneration and harmonizes "Wood" element organs.
- **Blue Light:** Stimulates mitochondrial activity and enhances "Water" energy.

These applications align with Ghadiali's Spectro-Chrome theory, where each color frequency supports specific physiological functions, as well as the five elements (Fire, Wood, Water, Earth, Air), aligned with the Wu-Hsing theory of TCM.

2.3 Sound Resonance

The Chakra Activator uses sound frequencies from crystal singing bowls, promoting relaxation and chakra alignment. Sound therapy supports nervous system regulation and coherence within the biofield.

2.4 Plasma Burst Energy:

Ensures energetic clearance and balancing without overstimulation.

2.5 Water Structuring with Silica Resonance

Structured water created through magnetic and optical influence becomes more bioavailable, supporting hydration and nutrient transport. The silica disc embedded in the device imprints energetic resonance into the water clusters, enhancing collagen formation and connective tissue integrity.

Scientific Reference: Structured water shows improved absorption and molecular coherence, relevant to biofield interactions and metabolic support.

Functions and Benefits

- **Chakra Alignment:** Targets each chakra with specific vibrational frequencies, color spectrums, and magnetic fields to restore energetic flow.
- **Biofield Enhancement:** Strengthens and stabilizes the human aura using 998 Hz emissions for shielding and vibrational coherence.
- **Water Structuring:** Magnetically restructures water and liquid-based supplements to increase cellular hydration and nutrient bioavailability.
- **Cosmetic and Longevity Support:** Stimulates dermal regeneration and skin tone when used topically, enhancing both appearance and biological vitality.
- **Environmental Harmonization:** Can be used to purify and balance energetic fields in rooms or spaces during rest, work, or meditation.

Scientific Foundations

- **Torsion Fields & Biophotons:** Leverages theories of biophoton coherence and torsion fields as described by Claude Swanson and Russian bioenergetics to explain energetic imprinting and field interactions.
- **Electromagnetic Field Therapy:** Builds upon FDA-approved research on pulsed electromagnetic field therapy for osteogenesis, circulation, and cellular repair.
- **Syntonics Light Therapy:** Supported by findings on ocularly perceived light influencing cognitive, emotional, and physiological health via the retino-hypothalamic tract.
- **Color and Frequency Resonance:** Incorporates frequency-matched waveforms for deep energetic harmonization, drawing on the legacy of Rife and Royal Raymond techniques.

Application Instructions

- **For Chakra Activation:** Direct the device at the chakra area for 10–30 minutes depending on the desired depth (Toning: 10 min, Harmonization: 15 min, Balance: 20–30 min).
- **Water/Item Activation:** Place water, oils, or crystals above the device for 3–8 minutes depending on desired intensity.
- **Topical Use:** Use for 10–20 minutes on skin or reflex zones for regenerative and cosmetic effects.
- **Environmental Balancing:** Run in rooms for 30–45 minutes for space harmonization.

Safety and Usage Considerations

The device is non-invasive, safe for daily use, and suitable for homes, offices, and healing environments. It is not a medical device and should not replace medical treatment. Users should ensure comfort and avoid extended use beyond recommended durations.

Here's a formatted **brochure-ready draft** for the **Chakra Activator – Element Activator**:

🌟 **Light Mandalas Presents: Chakra Activator – Element Activator**

Align Your Energy • Awaken Your Elements • Amplify Your Life

◆ What It Is

A portable, multi-modal energy harmonizer that activates and balances your chakras and elemental energies using **Tesla-based magnetic pulses, color-light therapy, sound resonance, and silica-infused water structuring**. Ideal for holistic practitioners and personal daily wellness.

◆ Key Benefits

- ✓ **Chakra Alignment & Clearing**
- ✓ **Aura Strengthening & Protection**
- ✓ **Water & Supplement Activation**
- ✓ **Skin Rejuvenation & Energy Boost**
- ✓ **Environmental Energy Harmonization**

Technologies Inside

- **Tesla Bifilar Coil**
High-frequency pulsed magnetic fields at 998 Hz, 50 kHz, 150 kHz enhance circulation, nervous system activity, and energetic coherence.
- **Color-Light Therapy (RGB)**
Red for Fire, Green for Wood, Blue for Water—each light engages biofields and chakras through the lens of Traditional Chinese Medicine.
- **Sound Resonance**
Chakra-specific audio vibrations emulate crystal bowl frequencies to promote emotional stability and inner harmony.
- **Silica Resonance Disk**
Structures water for improved hydration and nutrient absorption, while imprinting high-vibrational mineral intelligence.

Scientific Foundations

-  **Torsion Fields & Biophotons**
-  **PEMF Therapy for Osteogenesis**
-  **Color-Light Cognitive Optimization**
-  **Coordinative Resonance Frequencies (CRF)**

How To Use

- **Chakra Sessions:** Project to each chakra 10–30 min
- **Water/Oil Activation:** Place item 3–8 min over device
- **Facial/Energy Zones:** 10–20 min for harmonization
- **Room Clearing:** Use 30–45 min in space

Where To Use It

 At Home |  Yoga & Healing Studios |  Before Sleep
 Workspaces |  On Crystals |  Water Bottles & Supplements

Your Energy, Recharged

Light Mandalas Chakra Activator – for inner balance, outer glow, and elemental harmony.

Here's a **compact online store product description** for the **Chakra Activator – Element Activator**:

Chakra Activator – Element Activator

Portable Chakra & Elemental Energy Harmonizer

Align your chakras, energize your elements, and structure your water with this advanced wellness tool from Light Mandalas. Using Tesla coil-generated pulsed magnetic fields, color-light therapy (RGB), sound resonance, and silica-infused water structuring, this device supports daily energy alignment, emotional clarity, and vibrational balance.

Key Benefits:

- Balances all 7 chakras with targeted light, sound & magnetic resonance
- Energizes water, oils & crystals for improved bioavailability
- Stimulates skin regeneration & circulation
- Harmonizes personal aura & ambient space

How It Works:

- Magnetic Pulses (998Hz, 50kHz, 150kHz via Tesla coil)
- Color Light (Red, Green, Blue) for Elemental tuning
- Sound Frequencies for chakra-specific resonance
- Silica Disk integration for water structuring

Use It For:

Daily chakra alignment • Meditation • Water activation • Facial rejuvenation • Room energy clearing

 *Portable, powerful, and easy to use—experience multi-dimensional wellness in every session.*
